What is a Temporary Family, Friend, and Neighbor Child Care Provider?

During the emergency health declaration, the state will temporarily register family, friend, and neighbor (FFN) providers.

These providers may be eligible to receive child care assistance funding. Temporary FFN providers will be required to complete a background check, as will all family members over the age of 18 living in their home.

Temporary FFN providers will also be required to complete a three-hour online health and safety training and an online CPR training.
