

Principal's Report

1. Procurement & IT

- a. All new chromebooks have been added to inventory. We are still awaiting an answer to our application to the 3rd ECF window order of smaller, elementary sized chromebooks. In the event we do not receive this grant, we have enough of the larger chromebooks to fill all new classroom needs.
- b. The last batch of expired chromebooks, which were swapped out of classrooms last month with our new order, will be disposed of in the coming months. I will present to GC the proposed disposals at next month's GC meeting.

2. Staffing

- a. We have hired two new middle school teachers to fill our remaining vacancies in 8th grade Social Studies and 7th grade ELA. The new teachers are very promising and have already begun planning with their teams for next year.
- b. The use of Zoom for an interview medium made it possible for all of our department chairs to participate in the interviews, which is a practice I hope to continue even as we move beyond the pandemic.
