

Principal's Report

1. Technology

- a. We are working with Statewide Education Network on a new internet network which aims to connect all schools in New Mexico. While meeting with us during their initial proposal, they were so impressed with our server room and how Harmonix has designed our school network they asked to use our school for their televised "ribbon cutting" event. They have invited several individuals, including the Secretary of Education, to the event which will take place on August 15th in our gymnasium at 10:00AM.
